PROJECTS

- **Netflix Clone (HTML, CSS)** : - This project is a Netflix Sign-In and Log-In page clone, built using HTML and CSS. It replicates the main entry point of Netflix's UI design, focusing on responsive layout and styling.
- **Bakery Website (HTML, CSS)** : - Crafted with love and passion, this site showcases our delicious range of freshly baked goods. From artisan breads to mouth-watering pastries, we take pride in delivering quality, homemade treats!
- **Email - Automation System (Google Apps Script)** : - Developed a comprehensive automation system using GAS with Gmail and Sheets integration. Features include campaign scheduling, contact management, analytics dashboard, and responsive UI for streamlined email marketing.
- **HRMS System (Google Apps Script)** : - Developed a full-stack HR Management System using Google Apps Script and Google Sheets featuring attendance tracking, team/project management, and a challenges/review system with session-based authentication.
- **SunnyMood Collection (REACT, GITHUB)** : - A responsive React + Tailwind CSS frontend showcasing summer fashion with cart functionality and dark mode. Features product filtering, dynamic cart management, and theme toggling using Context API.
- **OLX-Sell-Clone (REACT, VERCEL)** : - Developed an OLX-inspired property listing platform using React, featuring conditional form fields, 20-image uploads, and real-time validation with Tailwind CSS styling.

TECHSTACK

Frontend : - React.js, HTML, CSS, JavaScript

Backend : - Node.js, Google Apps Script

Tools : - Git Version Control, Vercel, API Integration

Database : - MongoDB, MySQL
